HVAC Evaporator Drain Hose Clogged Due to Insect Intrusion

Applicability (continued)

REVISION NOTICE

December 3, 2018 Rev2:

- Applicability has been updated to include 2017 – 2018 model year iM vehicles.

March 8, 2017 Rev1:

- Applicability has been updated to include 2015 – 2017 model year Toyota vehicles.
- The Parts Information section has been updated.

Any previous printed versions of this bulletin should be discarded.

Introduction

Some vehicles in particular geographic areas may exhibit a condition where the HVAC evaporator drain hose has become obstructed with an insect nest. An insect repellent drain hose tip (ARINIX® Tip) is now available to help minimize future occurrences of this environmental condition. For some models, a new drain hose is required to properly fit the ARINIX® Tip. Follow the procedures in this bulletin for proper handling and installation of this optional service part.

NOTE

The ARINIX® Tip is NOT registered or labeled for sale or use outside the United States or Puerto Rico.

Required Tools & Equipment

TOOLS	QUANTITY
Chemical Resistant Gloves (Made From Waterproof Material)	1

HVAC Evaporator Drain Hose Clogged Due to Insect Intrusion

Safety Requirements for Handling the ARINIX® Tip (Water Hose Connector)

- Follow the manufacturer's instructions for cleaning/maintaining Personal Protection Equipment (PPE). If no such instructions for cleaning/maintaining PPE exist, use detergent and hot water. Keep PPE separate from other laundry.
- Users should remove PPE immediately after handling this product.
- Wash the outside of the gloves before removing.
- Users should wash hands before eating, drinking, chewing gum, or using the toilet.

CAUTION

IF SWALLOWED:

Call the poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow.

- Do NOT induce vomiting unless instructed by the poison control center or doctor.
- Do NOT give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING

Take off the contaminated clothing immediately. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES:

Hold eye open and rinse gently and slowly with water for 15 to 20 minutes. Remove contact lenses (if present) after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

HOTLINE NUMBER:

Have the product container or label with you when calling a poison control center, doctor, or going for treatment. You may also contact 800-424-9300 for emergency medical treatment information.

Directions for Use on ALL Repair Procedures

The ARINIX® Tip contains permethrin, a pesticide, as the active ingredient. Please note, it is a violation of federal law to use this product in a manner inconsistent with its labeling.

HVAC Evaporator Drain Hose Clogged Due to Insect Intrusion

Repair Procedure A

1. Follow the instructions provided in the Safety Requirements for Handling the ARINIX® Tip (Water Hose Connector) section of this bulletin.
2. Locate the HVAC evaporator drain hose.
3. Following the vehicle specific Repair Manual, remove the HVAC evaporator drain hose.
4. Put on all necessary PPE and install the ARINIX® Tip (Water Hose Connector) into the NEW HVAC evaporator drain hose listed in the Parts Information section of this bulletin.
5. When installing the ARINIX® Tip, verify it is fully seated in the HVAC evaporator drain hose as shown in Figure 1.
6. Following the vehicle specific Repair Manual, install the HVAC evaporator drain hose.

Figure 1

HVAC Evaporator Drain Hose Clogged Due to Insect Intrusion

Repair Procedure B

1. Follow the instructions provided in the Safety Requirements for Handling the ARINIX® Tip (Water Hose Connector) section of this bulletin.
2. Locate the HVAC evaporator drain hose.
3. Following the vehicle specific Repair Manual, remove the HVAC evaporator drain hose.
4. Put on all necessary PPE and install the ARINIX® Tip (Water Hose Connector) into the NEW HVAC evaporator drain hose listed in the Parts Information section of this bulletin.
5. When installing the ARINIX® Tip, verify it is fully seated in the HVAC evaporator drain hose as shown in Figure 1.
6. Following the vehicle specific Repair Manual, install the HVAC evaporator drain hose.

Repair Procedure C

1. Follow the instructions provided in the Safety Requirements for Handling the ARINIX® Tip (Water Hose Connector) section of this bulletin.
2. Locate the HVAC evaporator drain hose.
3. Following the vehicle specific Repair Manual, remove the HVAC evaporator drain hose.
4. Before installing the ARINIX® Tip (Water Hose Connector) into the NEW HVAC evaporator drain hose, the end of the hose MUST be cut perpendicular as shown in Figure 2.

Figure 2

5. Put on all necessary PPE and install the ARINIX® Tip into the NEW HVAC evaporator drain hose listed in the Parts Information section of this bulletin.

HVAC Evaporator Drain Hose Clogged Due to Insect Intrusion

Repair Procedure C (continued)

6. When installing the ARINIX® Tip, verify it is fully seated in the HVAC evaporator drain hose as shown in Figure 1.
7. Following the vehicle specific Repair Manual, install the HVAC evaporator drain hose.

Repair Procedure D

1. Follow the instructions provided in the Safety Requirements for Handling the ARINIX® Tip (Water Hose Connector) section of this bulletin.
2. Locate the HVAC evaporator drain hose.
3. Following the vehicle specific Repair Manual, remove the HVAC evaporator drain hose.
4. Before installing the ARINIX® Tip (Water Hose Connector) into the original HVAC evaporator drain hose, the end of the hose **MUST** be cut perpendicular as shown in Figure 2.
5. Put on all necessary PPE and install the ARINIX® Tip into the original HVAC evaporator drain hose listed in the Parts Information section of this bulletin.
6. When installing the ARINIX® Tip, verify it is fully seated in the HVAC evaporator drain hose as shown in Figure 1.
7. Following the vehicle specific Repair Manual, install the HVAC evaporator drain hose.
